27 January 1967

MEMORANDUM FOR THE RECORD

25X1A SUBJECT: Project [ ]

1. On 26 January 1967, the undersigned attended a meeting with representatives of COMOR, ORD and the Joint Atomic Energy Intelligence Committee (JAEIC). The primary purpose of the meeting was to determine what actions are required to generate a requirement, to which OSA can respond, for the Project [ ] operational mission.

3. [ ] outlined the purpose of the meeting and gave a short description of the [ ] equipment and its function.

4. Dr. Chamberlain stated that JAEIC has a requirement for the information which [ ] should provide and that he, as Chairman of JAEIC, would prepare a memorandum stating this requirement. He added, however, that the DCI might desire to limit knowledge of Project [ ] to Agency personnel and instead of running the requirement through COMOR for USIB approval, might prefer to use the JAEIC memorandum as justification for mission approval by the 303 Committee.
